Sortiment/beställningslista Växtskyltar 2011

Sortimentet av skyltbilder ökar i allt raskare takt. Nu är vi uppe i över 4800 st, inkl krukväxter. Kom gärna med förslag på sådant du saknar så ska vi se vad vi kan ta fram till kommande säsong. Inför år 2007 bytte många växter namn tack vare samordnade insatser i Europa. Osäkerhet och okunskap råder fortfarande kring en del namnsättningar. Vi skiftar namn löpande framöver och därför får man betrakta 2010 som ett övergångsår. Vi ber våra kunder ha överseende med detta.

OBS: vid en del växtnamn står sorter med *kursiv text*. Dessa sorter finns angivna i en separat ruta på bilden och är nära varandra i utseende. Det är ett sätt att anpassa antalet varianter av bilder till en hanterlig omfattning. Men nya sorter kommer hela tiden till och du kan naturligtvis använda bilderna även för andra, liknande sorter.

Om du enbart beställer skyltbilder fyller du enklast i antal, företag, adress och leveransvecka direkt i Sortimentlistan. Beställer du även andra varor kan du fylla i leveransuppgifter på ordinarie beställningslista.

Jag vill ha skyltbilderna levererade i
